PREFATORY.

By action of the Legislature of the State of Maryland our charter name has been changed from Centenary Biblical Institute to Morgan College. This change was deemed advisable by the Board of Trustees, because the school is no longer an Institute but a College, it is no longer exclusively or mainly Biblical, and Centenary has now no particular significance. The name "Morgan" for the College, was selected, after due deliberation, in honor of Rev. Lyttleton F. Morgan, D. D., of the Baltimore Conference, a tried and faithful friend of the school, who consented to such use of his name on the assurance that he would thus promote a worthy cause.

We shall commence our first Freshman Class with students from our own preparatory course.

The Baltimore City Academy is discontinued that the work of the institution may be brought under one control, thus avoiding unnecessary expense and expenditure of time in supervision. This arrangement will furnish the material for the formation of a "Model School," affording the graduating Normal Class opportunity for practice in teaching, while they are learning the theory. A first-class Normal Teacher will be secured to conduct this department of the work. A small fee of fifty cents a month only will be charged for tuition, which will cover the use of books, lighting and heating.

CORRESPONDENCE COURSE.

A Course of Biblical and Theological Studies has been arranged to meet the wants of itinerant Preachers, whose circumstances prevent them from spending any time in a Theological School. This Course is carried on by correspondence. It may be begun at any time during the school year. There is no charge to Ministers of the M. E. Church, except a fee of \$1.00 a year to cover the cost of stationery and postage. Ministers who complete this Course, and pass a satisfactory examination in the same, will receive a Theological Diploma of the Second Grade. The studies are arranged for three years, but the student can take a longer or shorter time to complete them. The final examination must be at the College.

After three years' experiment, this feature of our work has proved a valuable auxiliary to the College, in the way of affording its advantages in part to those who, otherwise, would be altogether deprived of them. The testimony of all who have persevered in the Course is that it has lightened instead of adding to their labors, by systematizing and adding to their stock of knowledge and proving helpful on all occasions. One Pastor voices the general sentiment, by saying: "I never had anything to help me more!" The studies are right on the line of Pulpit, Pastoral and Sunday-school work, and are practical and suggestive throughout. The special attention of all regular Pastors of our patronizing territory, who have enjoyed no privileges of the kind, is called to this important matter, as they cannot afford to lose this opportunity to improve themselves.

CONDITIONS OF ADMISSION.

To enter the College Course applicants must pass a satisfactory examination in the studies of the College Preparatory Course.

To enter the College Preparatory or Normal Course applicants must pass a satisfactory examination in the Normal Preparatory Course.

Students coming from either of our Branch Schools with certificates of satisfactory examination will be admitted to any grade to which the certificate admits without further examination, and students passing from grade to grade in the College will be advanced if the term and annual examinations are satisfactory.

INFORMATION IN GENERAL.

The Nineteenth Annual Session of Morgan College will begin Wednesday, October 2, 1890.

Examinations for entrance will be held at the College, corner of Edmondson and Fulton avenues, on Tuesday, October 1, 1890, beginning at 9 A. M. All applicants for admission to the Collegiate, Collegiate Preparatory, Theological, and Normal Department, will be examined at the College, and all applicants for admission to the Delaware Conference Academy, Princess Anne, will be examined at that place.

Ladies attending the College, desiring boarding accommodations, and having no friends in the city, must apply early, that suitable places may be secured.

Application for entrance should be made as early as possible, as we anticipate a large increase in numbers.

A blank application will be sent to any one requesting it, and as soon as it is returned, properly filled, and the applicant has passed the required examination, the name of the student will be placed on the College Register.

TERMS OF ADMISSION.

Applicants for Admission must produce certificates of good moral character.

Candidates for the Ministry are required to present a preacher's license, or a recommendation from the Quarterly Conference of the church to which he belongs.

All bills must be paid promptly in advance.

ACCOMMODATIONS.

Boarding may be obtained by gentlemen in either of the Clubs connected with each of the institutions, at \$1.25 per week.

Ladies attending the College from abroad and not having friends in the city, can find board and lodging in private families at prices from \$2.00 to \$2.50 per week, including room-rent.

Ladies attending the Delaware Conference Academy will board in the Club at the institution.

Washing is done at the Club Laundries for less than 25 cents per week.

Lodging is provided for gentlemen in comfortable rooms at the College, and at the Delaware Conference Academy, where a new and very convenient building has been erected with ample accommodations for gentlemen.

Ladies attending the Delaware Conference Academy are provided lodging in the main building with the Principal and his family.

EXPENSES.

Tuition Fees.

In the Collegiate, Collegiate Preparatory, and Normal Departments, per school month of four weeks, \$1.50.

In Normal Preparatory Department, Third Year, per school month of four weeks, \$1.25. In Second Year, \$1.00. In First Year, 50 cents. (The above charges include the use of books and class-room stationery, but the abuse or loss of books, or injury of furniture or other property, will be charged extra).

The children of Ministers will be charged one-half price on the above rates. Tuition will be free to Theological Students.

Room Rent.

All students lodging in the buildings of the institution will be charged for rooms, per school month of four weeks, \$1.00.

All students will be charged \$1.00 per year for incidentals.

BOARDING.—The College does not provide boarding for any students, but affords room and facilities free of charge for a Boarding Club, so that from fifty to seventy-five young men can board themselves at a merely nominal cost. The Club is allowed the use of a furnished Laundry, also, in the same manner. By this arrangement, boarding and washing cost no more than \$1.50 per week.

TOTAL EXPENSE.—The entire expense (boarding, washing, room-rent, tuition, etc.,) for a student belonging to the Club is about \$8.00 per month, or about \$75.00 for the entire school year. Boarding with a private family will cost more.

LOCATION.

THE COLLEGE is located on the corner of Fulton and Edmondson avenues, the highest and healthiest portion of Baltimore City. Students arriving by the B. & O. R. R. will find a street car inside the Camden-street Station, which will take them to the corner of Howard and Franklin streets, where they can obtain a free transfer ticket to the Edmondson avenue car, which will take them to the College building. Those arriving by other roads, at the Union Station, by walking to the corner of Maryland avenue and Oliver street, can take a *green car*, and obtain a transfer to the Edmondson avenue line at the corner of Howard and Franklin streets. (Trunks had better be left at the Stations, and the Teachers will inform parties how to have them hauled cheaply.)

THE DELAWARE CONFERENCE ACADEMY is located at Princess Anne, Md., on the line of the New York and Norfolk Railroad. Principal B. O. Bird will meet students at the Station if notified of the time of arrival.

PUBLIC WORSHIP.

Religious Service is held in all the Schools every school day morning at 9 a. m., at which the students are required to be present.

A Prayer-Meeting is held every Thursday evening, which every student may attend.

The students are required to attend public worship twice on the Lord's Day, at such churches as they, their parents or guardians, may select.

GOVERNMENT OF THE SCHOOL.

When an applicant has been admitted to any of the schools of this Institution that applicant must agree to conform strictly to the rules of the same.

At the close of each Term, and if necessary oftener, reports of attention to school duties and of deportment will be made to each student if of legal age, and if not, to parents or guardians.

Release from school duties can only be granted by the President of the College and Principals of the Branch Schools, and all final discipline must be by vote of the Faculty.

LIBRARY.

Our Library has been built to its present size by the earnest efforts of Drs. Round and Frysinger. We have now about 1500 books of all kinds. Some of them are valuable works. But we greatly need some fresh new books on the themes that are now occupying thinkers, that our students may get a glimpse of the working mind of today. Will not some friend or friends enable us to put 50 new books in our Library this year? We tender our thanks to the kind friends who have so generously donated books and periodicals in the past and trust they will not forget us in the future.

•••

MUSEUM.

The Museum contains quite a collection of instructive curiosities from nature and art. Geological specimens are arranged for inspection and study, and while our collection is not large, yet it furnishes a good opportunity for illustrating geological and mineralogical structures. Any specimens of curiosities, relics, minerals, coins, &c., which may be donated will be of great value in giving general information to our students, and will be highly appreciated.

•••

GYMNASIUM.

We have a room where we might place enough of the furnishing of a Gymnasium to afford our students daily practice. We have some light dumb-bells which are used, but we would like to extend the range of physical exercise. We would highly appreciate a donation or donations for this purpose.

SUPPORT NEEDED.

THE CURRENT FUND.—This is maintained, in part, by the Freedman's Aid and Southern Education collection taken in the Methodist Episcopal Churches of the Baltimore, Washington, Wilmington, and Delaware Conferences; by tuition fees and room rents; and by private donations. The annual expenses of the three schools amount to \$10,000, including repairs, etc. The collections from the patronizing Conferences reach about \$6,000. The income from the schools is about \$1,300. It will be seen, then, to meet our expenses we shall be obliged to draw largely on private generosity. And as the Christian education of the colored people appeals alike to philanthropy and patriotism may we not successfully appeal to lovers of our race and our country for a generous support.

The thanks of the President, Faculty and Trustees are tendered the few kind donors who have aided in the support of this work, and it is hoped they will continue to aid and that many more will come to the rescue.

THE BUILDING AND IMPROVEMENT FUND.—The rapid growth and development of the institution and its branches render necessary considerable improvement every year. \$45,000 worth of property has been accumulated nearly free from debt. The new and beautiful school building at Princess Anne is completed. It is a credit to the institution. It adds much to the beauty of the grounds and is very convenient, furnishing much needed dormitories for the gentlemen and three large recitation rooms that may be thrown into one fine room for general exercises. We greatly need a school in the Virginia valley. The central building on Edmondson and Fulton avenues must be repaired, and other improvements are necessary. We must be generously aided to carry forward this greatly needed work. We have a floating debt of \$5,000 which greatly embarrasses us and ought to be raised immediately.

ENDOWMENT FUND.—About \$16,000 have been invested, only part of which is productive. This fund grows slowly. The colored people are poor and can do but little. The attention of the generously disposed has been largely attracted in other directions. But no disposition of means can be possible where more immediate, beneficial or lasting results can be obtained. If you cannot bestow now as largely as you could wish, do not fail to remember this useful institution in your wills. This fund should be raised to \$50,000 at the earliest practicable moment. And if the friends of Morgan College will all do what they are able, we can immediately realize this greatly needed help.

NEEDY STUDENTS' FUND—It is almost necessary that we establish such a fund, so as to be able to loan students small sums to carry them through the term or year. Our students are poor and it is impossible for them to earn enough during the summer vacation to carry them through the school expenses of the year. For this reason many of them come late and leave early, thus hindering progress in the work of the school. A small loan would obviate this difficulty and greatly advance the student. We can only be allowed \$190 from the Educational Board for our school. But this is entirely inadequate to meet our pressing needs. We greatly need Scholarships to aid our poor and worthy students. The interest on \$500, with what the student could earn, would keep a young man, preparing for the ministry or teaching, in school for a year. The donor can name the Scholarship, and will be put in communication with the receiver. Can we not have four such Scholarships immediately?

NATURAL SCIENCE DEPARTMENT.

We have but little apparatus that will illustrate the laws operative in the realm of matter. We ought to have \$500 to expend in this Department, that our students may obtain a clear perception of the great facts of the natural world, and properly understand the works of God.
